"We are very pleased to report such strong performance, especially in these difficult economic times. It is a testament to our high quality portfolio and strong balance sheet that we delivered FFO growth of 8.8% for the year," said David Simon, Chairman and Chief Executive Officer. "We recognized well over a year ago that the economy was deteriorating and adopted aggressive cost control measures, significantly reduced our development spending, and enhanced our liquidity position. The retail environment has been and will continue to be challenging in the upcoming months, however, we are experienced in working through difficult economic cycles. We believe we are positioned to deliver earnings and FFO growth in 2009.

Our Board of Directors has made the prudent decision to pay our quarterly dividend of \$0.90 per share in a combination of 10% cash and 90% common stock. We believe this change in composition will fortify one of the industry's strongest balance sheets (rated A-/A3) as it will permit us to retain over \$925 million of cash if adopted for all of 2009. This decision is a reflection of our conservative stance on capital allocation and liability

management and is not in response to the current retail operating environment."

Dividends

Today the Company announced that its Board of Directors approved the declaration of a quarterly common stock dividend of \$0.90 per share, consisting of a combination of cash and shares of the Company's common stock. The Company intends that the aggregate cash component of the dividend will not exceed 10% in the aggregate, or \$0.09 per share. The dividend is payable on March 18, 2009 to stockholders of record on February 12, 2009.

Paying 90% of the 2009 dividend in shares of SPG common stock allows SPG to satisfy its REIT taxable income distribution requirement while enhancing its already considerable financial flexibility and balance sheet strength.

In accordance with the provisions of IRS Revenue Procedure 2008-68, stockholders may elect to receive payment of the dividend all in cash or all in common shares. To the extent that more than 10% of cash is elected, the cash portion will be prorated. Stockholders who elect to receive the dividend in cash will receive a cash payment of at least \$0.09 per share. Stockholders who do not make an election will receive 10% in cash and 90% in common stock.

The Company expects the dividend to be a taxable dividend to its stockholders, without regard to whether a particular stockholder receives the dividend in the form of cash or shares, and reserves the right to pay the dividend entirely in cash.

The number of shares issued as a result of the dividend will be calculated based on the volume weighted average trading prices of the Company's common stock on March 11, March 12 and March 13, 2009.

An information letter and election form will be mailed to stockholders of record promptly after February 12, 2009. The properly completed election form to receive cash or common shares must be received by the Company's transfer agent prior to 5:00 p.m. Eastern Standard Time on March 10, 2009. Registered stockholders with questions regarding the dividend election may call BNY Mellon Shareowner Services, the Company's transfer agent, at (800)454-9768. If your shares are held through a bank, broker or nominee, and you have questions regarding the dividend election please contact such bank, broker or nominee, who will also be responsible for distributing to you the letter and election form and submitting the election form on your behalf.

The Company also declared dividends on its two outstanding public issues of preferred stock:

-- 6% Series I Convertible Perpetual Preferred (NYSE: SPGPrI) dividend of \$0.75 per share is payable on February 27, 2009 to stockholders of record on February 13, 2009.

-- 8 3/8% Series J Cumulative Redeemable Preferred (NYSE: SPGPrJ) dividend of \$1.046875 per share is payable on March 31, 2009 to stockholders of record on March 17, 2009.

2009 Guidance

After giving effect to the estimated impact of paying up to 90% of the Company's 2009 common stock dividends in common stock, the Company estimates that diluted FFO will be within a range of \$6.40 to \$6.60 per share for the year ending December 31, 2009, and diluted net income will be within a range of \$1.95 to \$2.15 per share.

The Company's 2009 guidance estimates are based upon its internal budgeting and planning process and management's view of current market and economic conditions, including those in the retail real estate business. The Company's expectations also reflect the weaker retail environment and weakened state of the U.S. economy, as well as the current dislocation in the U.S. capital markets.

The 2009 guidance assumes comparable property NOI growth for the following operating portfolios:

Regional Malls	Flat to 1.0%
Premium Outlet Centers	3.0% to 5.0%

The 2009 guidance assumes an interest rate environment that is consistent with the current forward yield curves for one month LIBOR and the 10 Year U.S. Treasury note and makes certain assumptions on debt spreads. The guidance assumes no future acquisition or disposition activities other than the impact in 2009 from 2008 activity.

This guidance is a forward-looking statement and is subject to the risks and other factors described elsewhere in this release.

The following table provides the reconciliation of the range of estimated diluted net income available to common stockholders per share to estimated diluted FFO per share.

For the year ending December 31, 2009

	End	End

Depreciation and amortization including our share of joint ventures	4.56	4.56

Notes:

(A) Consolidation occurs when the Company acquires an additional ownership interest in a joint venture and, as a result, gains control of the joint venture. These interests have been separated from operational interests to present comparative results of operations.

(B) Discontinued joint venture interests represent assets and partnership interests that have been sold.

(C) Excess investment represents the unamortized difference of the Company's investment over equity in the underlying net assets of the partnerships and joint ventures. The Company generally amortizes excess investment over the life of the related properties, typically no greater than 40 years, and the amortization is included in income from unconsolidated entities.

Notes:

(1) The Company considers FFO a key measure of its operating performance that is not specifically defined by GAAP and believes that FFO is helpful to investors because it is a widely recognized measure of the performance of REITs and provides a relevant basis for comparison among REITs. The Company also uses this measure internally to measure the operating performance of the portfolio. The Company's computation of FFO may not be comparable to FFO reported by other REITs.

The Company determines FFO based upon the definition set forth by the National Association of Real Estate Investment Trusts ("NAREIT"). The Company determines FFO to be our share of consolidated net income computed in accordance with GAAP, excluding real estate related depreciation and amortization, excluding gains and losses from extraordinary items, excluding gains and losses from the sales of previously depreciated operating properties, plus the allocable portion of FFO of unconsolidated joint ventures based upon economic ownership interest, and all determined on a consistent basis in accordance with GAAP.

The Company has adopted NAREIT's clarification of the definition of FFO that requires it to include the effects of nonrecurring items not classified as extraordinary, cumulative effect of accounting changes, or a gain or loss resulting from the sale of previously depreciated operating properties. We include in FFO gains and losses realized from the sale of land, outlot buildings, marketable and non-marketable securities, and investment holdings of non-retail real estate. However, you should understand that FFO does not represent cash flow from operations as defined by GAAP, should not be considered as an alternative to net income determined in accordance with GAAP as a measure of operating performance, and is not an alternative to cash flows as a measure of liquidity.

(2) Includes the Company's share of gains upon the sale of land and other non-retail real estate investments of \$3.0 million and \$8.0 million for the three months ended December 31, 2008 and 2007, respectively and \$21.6 million and \$19.8 million for the twelve months ended December 31, 2008 and 2007, respectively.

(3) Includes the Company's share of straight-line adjustments to minimum rent of \$8.6 million and \$8.5 million for the three months ended December 31, 2008 and 2007, respectively and \$39.6 million and \$27.5 million for the twelve months ended December 31, 2008 and 2007, respectively.

(4) Includes the Company's share of the fair market value of leases from acquisitions of \$8.6 million and \$12.1 million for the three months ended December 31, 2008 and 2007, respectively and \$45.1 million and \$53.4 million for the twelve months ended December 31, 2008 and 2007, respectively.

(5) Includes the Company's share of debt premium amortization of \$4.7 million and \$6.0 million for the three months ended December 31, 2008 and 2007, respectively and \$19.4 million and \$32.1 million for the twelve months ended December 31, 2008 and 2007, respectively.

(6) Includes dividends and distributions of Series I preferred stock and Series C and Series I preferred units.
