**Item 2.02. Results of Operations and Financial Condition**

On November 3, 2008, Simon Property Group, Inc. (the “Registrant”) issued a press release containing information on earnings for the quarter ended September 30, 2008 and other matters. A copy of the press release is attached hereto as Exhibit 99.2 and the information in the press release is incorporated by reference into this report.

The press release and Supplemental Information package attached as Exhibit 99.1 use the non-GAAP financial measure of Funds from Operations (“FFO”). The Supplemental Information package also uses the non-GAAP measure of Net Operating Income (“NOI”). The Registrant considers FFO and NOI key measures of its operating performance that are not specifically defined by accounting principles generally accepted in the United States (“GAAP”). The Registrant believes that FFO and NOI are helpful to investors because they are widely recognized measures of the performance of real estate investment trusts (“REITs”) and provide relevant bases for comparison among REITs. The Registrant also uses FFO and NOI internally to measure the operating performance of its portfolio. Reconciliations of net income to FFO on an estimated and historical basis are provided on pages 65 and 73 furnished herewith in Exhibit 99.2. Reconciliations of net income to NOI on a historical basis are provided on page 14 furnished herewith in Exhibit 99.1.

The Registrant is furnishing the information contained herein, including Exhibit 99.2, pursuant to Item 2.02 of Form 8-K promulgated by the Securities and Exchange Commission (the “SEC”). This information shall not be deemed to be “filed” with the SEC or incorporated by reference into any other filing with the SEC.

**Item 7.01. Regulation FD Disclosure**

On November 3, 2008, the Registrant made available additional ownership and operational information concerning the Registrant, Simon Property Group, L.P., and properties owned or managed as of September 30, 2008 in the form of a Supplemental Information package, a copy of which is attached as Exhibit 99.1. The Supplemental Information package is also available upon request as specified therein.

The Registrant is furnishing the information contained herein, including Exhibit 99.1, pursuant to Item 7.01 of Form 8-K promulgated by the SEC. This information shall not be deemed to be “filed” with the SEC or incorporated by reference into any other filing with the SEC.

**Reconciliation of Net Income to NOI**  
**As of September 30, 2008**  
(in thousands, except as noted)

Industry practice is to evaluate real estate properties on an unleveraged basis. Net Operating Income (“NOI”) is a standard industry performance measure which is defined as operating income plus depreciation and amortization, both calculated in accordance with accounting principles generally accepted in the United States (“GAAP”). We consider NOI to be a key measure of our operating performance that is not specifically defined by GAAP. We believe that NOI is helpful to investors because it is a widely recognized measure of the performance of REITs and provides a relevant basis for comparison among REITs. We also use NOI internally to measure the operating performance of our portfolio.

However, you should understand that NOI:

- does not represent cash flow from operations as defined by GAAP,
- should not be considered as an alternative to net income determined in accordance with GAAP as a measure of operating performance,
- is not an alternative to cash flows as a measure of liquidity, and
- is not indicative of cash flows from operating, investing and financing activities.

The Reconciliation of Net Income to NOI provides net income, which we believe is the most directly comparable GAAP financial measure, and reconciles the amounts to “Total NOI of the Simon Group Portfolio.” This schedule also provides the increase in NOI of regional malls and Premium Outlet Centers that are comparable properties for the quarter and nine months ended September 30, 2008.

**Notes:**

- (A) Consolidation occurs when the Company acquires an additional ownership interest in a joint venture and, as a result, gains control of the joint venture. These interests have been separated from operational interests to present comparative results of operations.
- (B) Discontinued joint venture interests represent assets and partnership interests that have been sold.
- (C) Excess investment represents the unamortized difference of the Company's investment over equity in the underlying net assets of the partnerships and joint ventures. The Company generally amortizes excess investment over the life of the related properties, typically no greater than 40 years, and the amortization is included in income from unconsolidated entities.

**Notes:**

- (1) The Company considers FFO a key measure of its operating performance that is not specifically defined by GAAP and believes that FFO is helpful to investors because it is a widely recognized measure of the performance of REITs and provides a relevant basis for comparison among REITs. The Company also uses this measure internally to measure the operating performance of the portfolio. The Company's computation of FFO may not be comparable to FFO reported by other REITs.

The Company determines FFO based upon the definition set forth by the National Association of Real Estate Investment Trusts ("NAREIT"). The Company determines FFO to be our share of consolidated net income computed in accordance with GAAP, excluding real estate related depreciation and amortization, excluding gains and losses from extraordinary items, excluding gains and losses from the sales of previously depreciated operating properties, plus the allocable portion of FFO of unconsolidated joint ventures based upon economic ownership interest, and all determined on a consistent basis in accordance with GAAP.

The Company has adopted NAREIT's clarification of the definition of FFO that requires it to include the effects of nonrecurring items not classified as extraordinary, cumulative effect of accounting changes, or a gain or loss resulting from the sale of previously depreciated operating properties. We include in FFO gains and losses realized from the sale of land, outlot buildings, marketable and non-marketable securities, and investment holdings of non-retail real estate. However, you should understand that FFO does not represent cash flow from operations as defined by GAAP, should not be considered as an alternative to net income determined in accordance with GAAP as a measure of operating performance, and is not an alternative to cash flows as a measure of liquidity.

- (2) Includes the Company's share of gains upon the sale of land and other non-retail real estate investments of \$11.0 million (including \$9.4 million as a result of the disposition of an investment in a 50% owned multi-family residential facility adjacent to one of our retail operating properties) and \$0.5 million for the three months ended September 30, 2008 and 2007, respectively and \$18.6 million and \$11.8 million for the nine months ended September 30, 2008 and 2007, respectively.
- (3) Includes the Company's share of straight-line adjustments to minimum rent of \$9.5 million and \$8.3 million for the three months ended September 30, 2008 and 2007, respectively and \$31.0 million and \$19.0 million for the nine months ended September 30, 2008 and 2007, respectively.
- (4) Includes the Company's share of the fair market value of leases from acquisitions of \$9.1 million and \$15.1 million for the three months ended September 30, 2008 and 2007, respectively and \$36.5 million and \$41.3 million for the nine months ended September 30, 2008 and 2007, respectively.
- (5) Includes the Company's share of debt premium amortization of \$4.5 million and \$4.1 million for the three months ended September 30, 2008 and 2007, respectively and \$14.7 million and \$26.1 million for the nine months ended September 30, 2008 and 2007, respectively.
